Date and Time of Service:

*In accordance with the provisions of the Utah Coal Mining and Reclamation Act,
Utah Code Ann. § 40-10-1 et. seq. (Act), the above referenced Citation is:*

Modified as follows:

The original NOV required that the damage to USFS Road 0248 and adjacent Gabion support structures be stabilized and repaired within 2 weeks of discovery. It was mutually understood that the due date for this action was to be Friday, May 24, 2019. A partial inspection on May 23 revealed that the contractor (Scamp Construction) had started repairs but were nowhere near completion. In addition to repairing the road, the Permittee was required to submit revisions to the surface drainage plan in the MRP for review by the Division by June 12, 2019. The revisions were received by the Division on June 10, and are currently under review.

Reason for modification:

Even though Scamp Construction had installed barricades the same day the failure was discovered, very little earthwork and/or repairs were completed due to inclement weather conditions. A consistent pattern of rain and snow has been relentless this Spring, resulting in soil conditions too muddy to allow earthen excavation and concrete installation. Since the weather has dried out recently, construction has resumed and is currently on track to be completed by June 28, 2019.
